

SOCIAL DEVELOPMENT / PEPFAR PARTNERSHIPS

7 JUNE 2005

DURBAN

SITUATION ANALYSIS

- Prevalence of orphanhood
- Social impact
- Child headed households
- Disintegration of family structures
- Impact on communities

SOCIAL DEVELOPMENT STRATEGY

- Comprehensive National strategy – 2004 – 2007 which includes care and support
- Dept Social Development plan
- Policy Framework and guidelines for OVC

Programmes

- ● Home Community Based Care and Support Programmes
- ● Coordinated Action for Children infected and affected by HIV and AIDS
- ● Youth and Gender programme
- ● Workplace programme

CHALLENGES

- Increasing number of orphans with limited psychosocial support mechanisms
- Increasing burden of care on families which increases the vulnerability on children
- Increasing financial and emotional burden on extended families and their children
- Establishing a database for OVC
- Increasing number of child headed families
- Human resource capacity within both the public social services and NGO sector
-

CHALLENGES

- Lack of capacity of the NGOs and CBOs especially the indigenous CBOs.
- Lack of or poor psychosocial support to families especially children
- Stigmatisation with its effects on disclosure and children affected.
- The reality of the disease with impact on reproductive rights of women

PARTNERSHIP WITH PEPFAR

- Hope worldwide
- Nurturing Orphans and AIDS for Humanity (NOAH)
- CARE International
- Star Fish
- NMCF
- Save the Children UK
